

What is JobSkilla?

JobSkilla is a free online platform designed to bridge the gap between the unemployed, funded training providers and advisers.

JobSkilla will earn its revenue to widely market training courses and support services to the unemployed, through the growth of referral fees, advertising and partnerships.

The Mission...

Our mission is to assist, support and navigate unemployed skill seekers to free local funded training.

Our aim is to help the unemployed to maximise their potential, realise their ambitions and secure greater employment opportunities by obtaining the correct skills for work and skills for life.

What sets JobSkilla apart?

Our online software is built in the cloud from day one by our in-house industry specialists, allowing us the freedom to design the dream training solution for learners seeking courses, training providers advertising courses and advisers supporting learners.

We'll be working hand-in-hand with our extended network of partners to get JobSkilla out to the world. Our team will be out visiting the unemployed market with marketing material, assisting skill seekers with their course requirements.

Skills for work. Skills for life.

Introducing the Future for Skills & Training

Together, with your help, we're building a better future for the **Unemployed, Training Providers & Advisers**

We're bringing everyone together to achieve more.

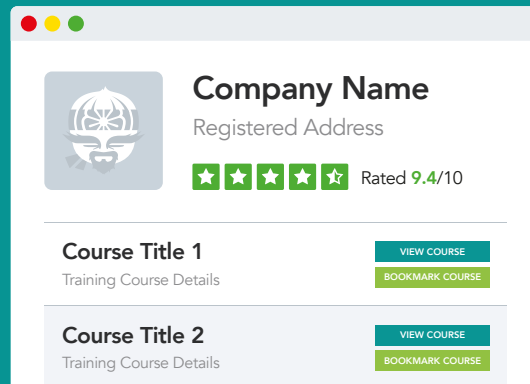

How it works: For the Unemployed

-  Search and book on local, regional or national training courses that work for you.
-  Search and book from anywhere, anytime whilst in the comfort of your own home or on-the-move.
-  Connect with local Advisers to get the best opportunities from acquiring the right skills.
-  Receive Friendly Reminders about your upcoming courses such as time and location.
-  Receive notifications on new courses available in your area that match your search criteria.
-  Provide feedback and impartial reviews on your training course experiences.
-  Receive free online support and advice direct via www.jobskilla.co.uk

Search and book training courses from anywhere, anytime

How it works: For Training Providers

-  Create, edit, update and publish new training courses from anywhere, anytime.
-  Receive direct bookings from learners searching for training courses in your area, in real-time.
-  Build your reputation with your own custom page containing reviews, photos, course listings and more.
-  Use our online check-in system to register learners and keep full track of their attendance rates.
-  Invite your team, assign them to your company and start building your training empire.
-  Keep your learners up to date with email and text reminders about their course dates and location.
-  Let your team and connected advisers keep up to date with attendance and pass rates in real-time.
-  Building trust and transparency between training providers, advisers and learners with impartial reviews.
-  We'll notify you when we know there is a demand of any particular unlisted courses in your area.

The screenshot shows a user profile for a training provider. At the top, there is a company logo and the name 'Company Name' with the text 'Registered Address' below it. A star rating of 9.4/10 is displayed. Below this, there are two course listings. Each listing includes a 'Course Title', 'Training Course Details', and two buttons: 'VIEW COURSE' and 'BOOKMARK COURSE'.

How it works: For Advisers

Easily view, export and share attendance and pass statistics

-  Grow your network through connecting with local, regional or national Training Providers.
-  Connect with Unemployed Learners to suggest courses, offer support and monitor their progress.
-  Keep up to date with Unemployed Learners' attendance and pass rates in real-time.
-  Export your results and data as digestible reports as and when required for offline analysis and storage.

We're in the final stages!

We're now in the final stages of refining the first phase of JobSkilla's online platform to not only offer the best experience, but one that's here to stay. Join our community to become a part of JobSkilla and be the first when we launch.
